

May 3, 2017

To All Shadow Wood Residents:

The Technology Infrastructure Project (TIP) Committee and the SWCA Board of Directors are pleased to announce that the residents of Shadow Wood have **approved** the proposed upgrade of our Internet and TV delivery infrastructure. Voting was concluded on May 2nd and our third-party voting coordinator, VOTE NOW, and our independent audit firm have provided us with the following results:

Total votes cast:	1178	(80% of our 1481 homes)
Votes to “approve” the recommended upgrade:	1078	(92%)
Votes to “reject” the recommended upgrade:	100	(8%)

Both the Board and the Committee want to **Thank You** for the high level of interest in the project and the tremendous participation in the voting process. Both are strong indications of the importance you place on maintaining Shadow Wood’s infrastructure systems and improving our amenities as a premier community here in SWFL.

As a result of this vote, the Board will meet tomorrow and give the Committee approval to proceed with finalization of the contract with Hotwire Communications. This is expected to take 30-45 days. In the meantime, Hotwire will initiate their detailed engineering planning for the network configuration and develop a detailed construction schedule. Once both the contract and engineering plans are approved by the Board, construction will be initiated—projected to be in the July/August timeframe. With this start of construction in mind, no resident should enter into a new extended term contract for TV or Internet service with any of the current providers.

The Committee will continue to issue TIP Newsletters as the project progresses to keep you advised as to status and upcoming events or activities that may require your involvement (none within next 4-5 months). You may also continue to access information regarding the project at either the internal SWCA webpage dedicated to the project or the special Shadow Wood webpage established by Hotwire. For your reference those pages are:

- SWCA TIP webpage ([click here](#))
- Hotwire Shadow Wood webpage ([click here](#))—Note access code of **7381** is required

Again, thank you for your strong support of the TIP initiative.

The TIP Committee and SWCA Board
